PROFESSIONAL SUMMARY

SQA Engineer with 3.5+ years of experience in fintech and enterprise application testing. Specialized in **end-to-end testing of high-reliability systems**, ensuring data accuracy and stability. Reduced production defects by **35%** and cut data migration effort by **90%** through automation and process improvement. Proficient in **Selenium WebDriver, Cucumber (BDD), and TestNG**, with strong expertise across the full STLC, including test planning and API validation.

TECHNICAL SKILLS

QA & Testing: Functional, Regression, Integration, Exploratory, UAT, Cross-browser, Mobile Testing, Risk-based Testing, Shift-left Testing

Test Automation: Selenium WebDriver, Cucumber (BDD), Appium, TestNG, JUnit, POM Design Pattern

API Testing: Postman, Newman, REST API Validation

Performance & Security: Apache JMeter, Basic Security Testing (Burp Suite)

CI/CD & Tools: Jenkins, Git, Jira, Redmine, Chrome DevTools

Programming & Databases: Java, Python, SQL, HTML, CSS

Methodologies: Agile/Scrum, SDLC, STLC, Test Strategy, Test Planning, Defect Lifecycle Management

PROFESSIONAL EXPERIENCE

QA Engineer ↑ Promoted

Jan 2026 – Present

DataSoft System Bangladesh Limited – Dhaka, Bangladesh

- Designed and developed **DataShift (Python + Selenium)**, reducing data migration effort from **80 hours to 7 hours per branch (~90% improvement)**.
- Led **automation framework development** using Selenium WebDriver, Cucumber (BDD), and JUnit with POM architecture.
- Performed basic **security testing using Burp Suite**, identifying vulnerabilities for resolution.
- Collaborated with cross-functional teams to align QA with business goals and release timelines.
- Mentored junior QA engineers, accelerating **automation adoption and team productivity**.

Junior QA Engineer ↑ Promoted

Sep 2022 – Dec 2025

DataSoft System Bangladesh Limited – Dhaka, Bangladesh

- Designed and maintained **2,000+ test cases**, increasing regression coverage by **45%**
- Performed functional, regression, integration, exploratory, and cross-browser testing for Microfin360 Next — a fintech platform serving 350+ MFIs.
- Performed **API validation** (edge cases, error handling) using Postman & Newman
- Conducted **performance and load testing** using Apache JMeter
- Performed **SQL-based backend validation** to ensure data integrity
- Managed defects in Redmine and collaborated on **root cause analysis (RCA)**.

QA Engineer Intern

Jun 2022 – Aug 2022

DataSoft System Bangladesh Limited – Dhaka, Bangladesh

- Performed manual testing (functional, regression, and exploratory) under supervision.
- Wrote and executed test cases; reported defects using Redmine.
- Gained hands-on experience in SDLC, STLC, and Agile workflows.

Key Achievements

- ★ Reduced **production defects by 35%** through improved automation and test coverage.
- ★ Increased **regression coverage by 45%** across web and mobile platforms.
- ★ Awarded **“Star Player” (2024)** for outstanding QA contribution.
- ★ Built **DataShift automation tool**, saving significant operational time and improving accuracy.

KEY PROJECTS

Microfin360 Next — Enterprise Microfinance Platform | 350+ MFIs | Java · Selenium · Cucumber BDD

- Performed **end-to-end** functional, regression, integration, and API testing for a large-scale fintech platform.
- Built **automated regression test suites** using Selenium WebDriver, Cucumber (BDD), and Java.
- Validated **REST APIs, database transactions, and critical financial** workflows to ensure system accuracy.

DataShift — Data Migration Automation Tool | Self-Initiated | Python · Selenium

- Designed and developed an automation tool reducing migration effort by **~90%**.
- Improved **data accuracy and deployment efficiency** across multiple branches.

EDUCATION

BSc in Computer Science and Engineering

Jan 2018 – Feb 2022

Green University of Bangladesh, Dhaka

CERTIFICATIONS & TRAINING

Java and SQL Certification — Top 10% Scorer – TestDome

Apr 2022

Hands-on SQA & Cyber Security Course – IT Training BD

Jun – Aug 2022

SOFT SKILLS

Analytical Thinking • Attention to Detail • Ownership Mindset • Cross-functional Collaboration • Agile Adaptability

LANGUAGES

Bengali — Native **English** — Professional
